## Survivorship Whole Life

Survivorship Whole Life provides guaranteed death benefit protection and cash value accumulation for two lives, which can be more cost effective than separate individual whole life policies.

### Survivorship Whole Life offers:

- Guaranteed lifetime death benefit after the second death
- Premiums that are guaranteed not to change
- Predictable cash value growth without market risk - plus the ability to access cash value for any reason
- An opportunity to build additional cash value through non-guaranteed dividends

For details about the optional riders you have selected, see the Policy Overview section of this illustration.

## The Strength of Your Cash Value and Death Benefit

Survivorship Whole Life is an attractive permanent life insurance option because of its guaranteed cash value growth, guaranteed death benefit and guaranteed level premiums. As an added benefit it offers additional growth potential through non-guaranteed dividends.

The chart below shows the values and benefits provided by your policy. The internal rate of return (IRR) shown represents the rate of return you would have to earn on your premium outlay in order to equal the corresponding values.

<b>Product:</b>	Survivorship Whole Life	<b>Initial Premium:</b>	\$95,620.30
<b>Insured:</b>	Valued Client	<b>Initial Face Amount:</b>	\$2,000,000
	Male, Age 50	<b>Policy Payment Period:</b>	50 Years
	Preferred Non-Tobacco	<b>Dividend Scale:</b>	Current
		<b>Initial Dividend Option:</b>	PUAs
	Second Client		
	Female, Age 50		
	Preferred Non-Tobacco		

### Non-Guaranteed Values<sup>1</sup>

## About The Penn Mutual Life Insurance Company

For more than 175 years, Penn Mutual has been helping people get stronger. Our expertly crafted life insurance is vital to long-term financial health and strengthens people's ability to enjoy every day. Working with our trusted network of financial professionals, we take the long view, building customized solutions for individuals, their families, and their businesses. Penn Mutual supports its financial professionals with retirement and investment services through its wholly owned subsidiary Hornor, Townsend & Kent, LLC, member FINRA/SIPC.

**Visit Penn Mutual at [www.pennmutual.com](http://www.pennmutual.com).**

All guarantees are based on the claims paying ability of the issuing company. Survivorship Whole Life is a last-survivor whole life insurance policy offered by The Penn Mutual Life Insurance Company. Product or features may not be available in all states. Survivorship Whole Life policy form numbers: ICC17-TLJ. (Policy form numbers may vary by state.)

**This concept report is not valid without a full basic illustration for the life insurance policy described. Refer to the basic illustration for guaranteed elements and other important information. Not valid without all pages included.**

Any reference to the taxation of life insurance products in this material is based on the issuing company's understanding of current tax laws. The issuing company and its representatives do not provide tax or legal advice. Please consult a qualified tax professional regarding your personal situation.

Accessing cash values may require additional premium payments to maintain coverage, and will reduce the death benefit and policy values.

For more information on coverage, please contact your Financial Professional.

## Introduction

### About Penn Mutual

At Penn Mutual we are committed to helping families & businesses unlock the possibilities of life through our life insurance and annuity solutions.

Since 1847, we have consistently met our financial obligations to policyholders. We are committed to the brighter futures and best interests of all of our policyholders.

### About Survivorship Whole Life

Survivorship Whole Life is permanent life insurance that offers:

- A death benefit guaranteed after the second death
- Consistent premiums to support your personal budgeting
- Access to guaranteed cash value when you need it
- An opportunity to build additional cash value through non-guaranteed dividends.

Accessing cash value will reduce your policy death benefit and values, may result in certain fees and charges and may require additional premium payments to maintain coverage.

### Introduction to Your Illustration

This illustration provides an overview of Survivorship Whole Life, including the base life insurance policy, selected riders and examples of how the policy may perform, given the assumptions outlined in this illustration.

This illustration assumes that the currently illustrated non-guaranteed elements will continue unchanged for all years shown. This is not likely to occur, and actual results may be more or less favorable than those shown.

**All guarantees are based on the claims paying ability of the issuing company.**

### Insured: **Valued Client and Second Client**

Male, Age 50, Preferred Non-Tobacco  
Female, Age 50, Preferred Non-Tobacco  
Contract Premium Mode: Annual  
EPPUA Premium Mode: Annual  
Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
Initial Premium: \$95,620.30

## Policy Overview

### Insureds

**Valued Client  
Second Client**

The two people who are covered by this illustration.

### Policy Owner

The owner(s) described in this illustration. This illustration assumes the policy is owned by a Third Party.

### Issue State California

The illustration is subject to the regulations and requirements of this state.

### Assumed Policy Date July 8, 2023

The values and assumptions shown are based on the date this illustration was prepared. The values of your policy may vary depending on your actual policy date, which is the date your policy becomes effective.

### Survivorship Whole Life

**Policy Payment Period: 50 Years**  
Initial Base Face Amount: \$2,000,000

Your Survivorship Whole Life Policy has:

- A Policy Payment Period of 50 years which is set at policy issue
- Guaranteed premiums based on the Policy Payment Period
- Guaranteed death benefit and cash value accumulation until the younger insured reaches age 121
- An opportunity to increase the cash value and death benefit with non-guaranteed dividends.

### Death Benefit (DB)

This is the benefit payable at the death of the last surviving insured. It includes the base coverage amount plus any additional death benefits from dividends or from supplemental riders.

Any death benefit paid at the death of the last surviving insured will be reduced by any loans or PUA/dividend surrenders taken from your policy.

### Riders

The following illustrated riders are subject to underwriting which may affect their availability or the coverage amount, and are subject to limitations and exclusions which are not set forth below. Riders on conversions from term policies and term riders are also subject to underwriting, as well as limitations and exclusions not set forth below.

Your illustration may show additional benefits or riders terminating before natural expiry, as defined in the policy. Terminating benefits or riders early may not be automatic and must be elected by contacting Penn Mutual.

### Insured: **Valued Client and Second Client**

Male, Age 50, Preferred Non-Tobacco  
Female, Age 50, Preferred Non-Tobacco  
Contract Premium Mode: Annual  
EPPUA Premium Mode: Annual  
Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
Initial Premium: \$95,620.30

### **Accelerated Death Benefit Rider for Terminal Condition** Rider Form: ACDB-17-CA

This benefit allows you to access a portion of the death benefit when a licensed physician certifies that the last surviving insured has been diagnosed with a terminal condition resulting in a life expectancy of 12 months or less.

- This benefit is automatically included with your policy and there is only a cost for this benefit when it is used.
- Accelerated death benefit payments will be paid in a lump sum only once per policy and will reduce your death benefit and policy value.
- The unadjusted payment amount is expressed as a "Requested Percentage" of the eligible amount, as defined in the policy. The amount accessed must be at least \$10,000, but no more than 50% of the eligible amount with an overall maximum of \$250,000 per policy on the life of the insured.
- The amount of the claim actually received will include the following reductions:
  - Premium payments that would have been paid during the 12 months following the benefit payment date.
  - A loan repayment equal to the Requested Percentage times any outstanding loan balance.
  - A 12-month interest rate discount using a rate guaranteed to be no greater than the ninety-day treasury bill or the current maximum statutory adjustable policy loan interest rate.
- Penn Mutual must receive written proof of the death of one insured.
- Accelerated death benefits are usually income tax-free. Please consult a personal tax professional prior to receiving any accelerated benefit payments.
- The accelerated Death Benefit payment is intended to qualify for favorable tax treatment under section 101(g) of the Federal Internal Revenue Code. Exercising this benefit could be a taxable event so assistance and advice should be obtained from a personal tax professional prior to receipt of any prepayments.
- **The Accelerated Death Benefit Rider is a life insurance benefit that also gives you the option to accelerate some of the death benefit in the event that the Insured meets the criteria for a qualifying event described in the policy. This rider does not provide long-term care insurance subject to California long-term care insurance law. This rider is not a California Partnership for Long-Term Care program policy. This rider is not a Medicare supplement policy.**
- An Accelerated Death Benefit Payment is the actual benefit paid by the Accelerated Death Benefit Rider if eligible and will be paid in a lump sum only once per policy. The benefits provided by long-term care insurance are not the same as those provided by the Accelerated Death Benefit Rider. The Accelerated Death Benefit Rider requires that the Insured has a non-correctable terminal condition that results in the Insured's having a remaining life expectancy of twelve months or less, whereas long-term care insurance typically requires an inability to do two of six Activities of Daily Living or Severe Cognitive Impairment. The Rider also does not restrict how the policy owner can use the Accelerated Benefit Payments, whereas long-term care insurance will generally require proof of expenses incurred.

### Insured: **Valued Client and Second Client**

Male, Age 50, Preferred Non-Tobacco  
 Female, Age 50, Preferred Non-Tobacco  
 Contract Premium Mode: Annual  
 EPPUA Premium Mode: Annual  
 Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
 Initial Premium: \$95,620.30

### Accelerated Death Benefit Rider for Terminal Condition (continued)

#### Hypothetical Example of Accelerated Death Benefit Payment

*This example of the Accelerated Death Benefit is hypothetical and reflects the assumptions used in this Life Insurance illustration. It assumes that the owner has provided due proof that the last surviving insured has a non-correctable terminal illness and is diagnosed with a life expectancy of less than 12 months and has requested a 50% prepayment of the policy's death benefit as of the beginning of policy year 50. This example also assumes that any premiums due have been paid. Benefits and values are not guaranteed and actual results may be more or less favorable.*

**Last Surviving Insured: Male; Underwriting Class: Preferred Non-Tobacco; Age 50 at Issue; Age 99 at Payout; Requested Accelerated Death Benefit - 50% of Maximum Amount: \$4,529,140 Accelerated Benefit Payment after discounting adjustment: \$250,000.00; Current Accelerated Death Benefit Interest Rate: 5.70%. The actual rate will be determined on the date of application for the ABP.**

	Immediately Before Acceleration	Immediately After Acceleration
<b>Annualized Premium:</b>	0	0
<b>Total Cash Value:</b>	4,238,979	3,991,658
<b>Face Amount:</b>	532,000	500,961
<b>Total Death Benefit:</b>	4,529,140	4,264,890

### Chronic Illness Accelerated Benefit Rider Rider Form: ABCI-15-CA

This rider enables the policy owner to access a portion of the policy death benefit as an Accelerated Benefit Payment (ABP) if the last surviving insured becomes chronically ill.

- This benefit is automatically included with eligible policies. Issue of this rider is subject to underwriting approval.
- There is no charge for this rider, but there is an impact to the death benefit and cash value when it is used.
- A licensed health care practitioner, not related to the insured or policy owner, must provide a certification prepared within the last 12 months that the insured has a chronic illness. Specifically, a condition is considered a chronic illness when, for a period of at least 90 days, the insured:
  - Is unable to perform at least two of the following daily activities: bathing, transferring, dressing, eating, continence and toileting or
  - Requires substantial supervision by another person to avoid injury or harm due to severe cognitive impairment
- The licensed health care practitioner must certify that the chronic illness is expected to continue for the remainder of the insured's life.
- **The Chronic Illness Accelerated Benefit Rider is a life insurance benefit that also gives you the option to accelerate some of the death benefit in the event that the Insured meets the criteria for a qualifying event described in the policy. This rider does not provide long-term care insurance subject to California long-term care insurance law. This rider is not a California Partnership for Long-Term Care program policy. This rider is not a Medicare supplement policy.**

### Insured: **Valued Client and Second Client**

Male, Age 50, Preferred Non-Tobacco  
Female, Age 50, Preferred Non-Tobacco  
Contract Premium Mode: Annual  
EPPUA Premium Mode: Annual  
Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
Initial Premium: \$95,620.30

### **Chronic Illness Accelerated Benefit Rider** (continued)

#### **Accelerated Benefit Payment (ABP)**

- May be requested as a Lump Sum or series of equal payments paid semi-annually, quarterly, or monthly. The ABP will continue to be paid as long as the insured remains eligible and there is remaining death benefit to be accelerated; certification from a licensed health care practitioner must be submitted and reapproved by Penn Mutual every 12 months.
- Minimum: \$4,800 per 12-month period
- Maximum: Lesser of 24% of the Death Benefit on the date of initial election (including the Enhanced Permanent Paid-Up Additions Rider), or \$240,000 per 12-month period, or the Per Diem Limitation. The Per Diem Limitation is declared each calendar year by the IRS - \$420 per day the insured is chronically ill for 2023. This illustration assumes a calendar year of 365 days.
- The ABP cannot be less than the reduction in the cash value less any outstanding policy loans.
- The ABP cannot cause the remaining death benefit to be less than \$50,000.
- The ABP is intended to qualify for favorable tax treatment under section 101(g). An ABP will only be paid if, to the best knowledge of Penn Mutual, such payment qualifies for favorable tax treatment under IRC Section 101(g) and all other applicable sections of the federal law at the time this benefit is elected. Other ABP type payments from other insurance policies or other qualified long term care services will be considered in making this determination. In any event, any ABP payments received from this or another insurance policy that exceed the IRC annual limit may be taxable. Please consult a qualified tax professional regarding your own personal situation.
- An Accelerated Benefit Payment is the actual benefit paid by the Chronic Illness Accelerated Benefit Rider and is subject to the Accelerated Benefit Payment limits in the contract. The benefits provided by long-term care insurance are not the same as those provided by the Chronic Illness Accelerated Benefit Rider. The Rider does not restrict how the policy owner can use the Accelerated Benefit Payments, whereas long-term care insurance will generally require proof of expenses incurred.

#### **How ABP can Affect Policy Values and Death Benefits**

- Using this benefit will reduce policy cash values and death benefits.
- The reduction in the policy death benefit will be greater than the amount of the ABP.
- The amount of the claim actually received will be reduced by a loan repayment based on a proportional amount of any outstanding loan balance.
- There may be an impact on other policy and rider provisions due to the payment of this accelerated benefit.
- The Accelerated Benefit Interest Rate is guaranteed not to exceed the greater of the current yield on the ninety-day Treasury bill available on the date of application for the ABP, the Moody's Corporate Bond Yield Average, and the minimum interest rate used to calculate policy values plus 1%.

Due to the rule that the ABP cannot be less than the reduction in the cash value less outstanding policy loans, the ABP amount is not available. Other options may be a partial surrender or loan.

### Insured: **Valued Client and Second Client**

Male, Age 50, Preferred Non-Tobacco  
 Female, Age 50, Preferred Non-Tobacco  
 Contract Premium Mode: Annual  
 EPPUA Premium Mode: Annual  
 Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
 Initial Premium: \$95,620.30

### Chronic Illness Accelerated Benefit Rider (continued)

### Comparison of an Accelerated Death Benefit Rider and Long-Term Care Insurance

Accelerated Death Benefit Rider: Chronic Illness	Long-Term Care Insurance: Note that Penn Mutual does not offer Long Term Care Insurance and this description is for comparison purposes only.
<p><b>Description of Benefits</b></p> <p>Accelerated death benefits are proceeds of a life insurance policy that are paid to the owner before the insured dies. The benefits may be included in the base life insurance policy or provided by a rider or endorsement to the policy.</p> <p>This type of benefit provides that a percentage of the life insurance policy's proceeds are paid prior to death when the owner has a qualifying claim.</p> <p>To make a claim, the owner must be able to demonstrate that he or she has a chronic illness as that is defined in the life insurance policy or rider. The face amount of the life insurance policy will be reduced as a result of any accelerated death benefit payment made to the owner, thus reducing the future death benefit available. The reduction in death benefit will be greater than the accelerated death benefit payment received. Other features and benefits including cash value and loan availability of the policy may be impacted as well.</p> <p>The amount of death benefit that may be accelerated can vary, but it is typically capped at a percentage of the life insurance policy's death benefit.</p>	<p><b>Description of Benefits</b></p> <p>Long-term care insurance is intended to help pay for the cost of long-term care services. Depending on the policy, long-term care insurance can provide coverage for care in the insured's home, adult day care centers, assisted living facilities and nursing homes.</p> <p>Other benefits in long-term care insurance may include an allowance for home modifications, discounts for couples, training for caregivers, respite care, waiver of premium while on claim and care coordination services.</p> <p>There are two general ways that an insurance company will pay the benefit once eligibility is determined: on an expense-incurred basis or an indemnity basis. With an expense-incurred policy, the coverage amount is generally the lesser of the actual cost of the expenses paid, or a maximum coverage amount. Under the indemnity method of payment, the benefit is a fixed dollar amount that does not vary based on the actual expenses incurred by the insured.</p>
<p><b>Qualifying Events</b></p> <p>The Chronic Illness Accelerated Death Benefit rider defines Chronic Illness and a diagnosis of that chronic illness is the qualifying event for the rider. Certification by a health practitioner that the chronic illness is expected to be permanent is also required.</p>	<p><b>Qualifying Events</b></p> <p>A long-term care policy may have a similar qualifying event; however it is often the case that a diagnosis is not sufficient and it is also necessary that the insured incur expenses related to the diagnosis of a chronic illness.</p>

### Insured: Valued Client and Second Client

Male, Age 50, Preferred Non-Tobacco  
 Female, Age 50, Preferred Non-Tobacco  
 Contract Premium Mode: Annual  
 EPPUA Premium Mode: Annual  
 Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
 Initial Premium: \$95,620.30

### Chronic Illness Accelerated Benefit Rider (continued)

<p><b>Elimination Period</b></p> <p>An elimination period is a waiting period. It is the period that must pass before any benefits under the Accelerated Death Benefit rider are payable. CIAB does not have an elimination period, but the insured's chronic illness must be present for 90 days to be considered a qualifying event.</p>	<p><b>Elimination Period</b></p> <p>Long term care insurance policies may or may not have an elimination period. If it does, the elimination period begins once the insured qualifies for care and meets any other eligibility requirements of the policy. Typically, any expenses incurred during that elimination period are not reimbursed. Sometimes there are different options that can be selected at the time of purchase of the policy. These can typically be as short as 30-days or as long as 100-days.</p>
<p><b>When Benefits Are Not Needed</b></p> <p>Because the accelerated death benefits are part of a life insurance policy, if the chronic illness benefits are not needed, the death benefit under the policy is payable upon the insured's death, based on the terms of the life insurance policy, e.g. minus any loans, unpaid premium, etc.</p>	<p><b>When Benefits Are Not Needed</b></p> <p>Under a typical long-term care insurance policy, if no qualifying claims are made, there is no payment made. Some long-term care insurance policies may offer a Return of Premium feature, providing that if no qualifying claims are made during the insured's lifetime, there will be a refund of the premiums paid.</p>
<p><b>Restrictions on the Use of Benefit Payments</b></p> <p>There are no restrictions on how the accelerated death benefit payment can be used.</p>	<p><b>Restrictions on the Use of Benefit Payments</b></p> <p>Under an expense-incurred type long-term care policy, the benefits are explicitly tied to only those expenses that are related to services received for long-term care. There are no restrictions on an indemnity type policy benefit.</p>
<p><b>Tax Treatment</b></p> <p>The tax code is complicated, and we cannot cover all of the intricacies in this brief format. Please consult with your tax advisor to evaluate any tax impact of Accelerated Death Benefits.</p> <p>Generally speaking, though, accelerated death benefit payments are excluded from gross income for federal tax purposes under the Internal Revenue Code, although in some circumstances there may be a per diem limit or exceptions to the tax qualified treatment of the benefit.</p>	<p><b>Tax Treatment</b></p> <p>The tax code is complicated, and we cannot cover all of the intricacies in this brief format. Please consult with your tax advisor to evaluate any tax impact of long-term care insurance Benefits.</p> <p>Long term care insurance benefits are often excluded from gross income for federal tax purposes. The issues related to taxation differ depending on whether the policy is one that is expense-incurred or indemnity base. There are certain limitations such as a per diem limit too.</p>

### Insured: **Valued Client and Second Client**

Male, Age 50, Preferred Non-Tobacco  
Female, Age 50, Preferred Non-Tobacco  
Contract Premium Mode: Annual  
EPPUA Premium Mode: Annual  
Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
Initial Premium: \$95,620.30

### **Overloan Protection Benefit Rider** Rider Form: OPB-TL-17

This rider keeps your policy in force despite outstanding loans.

- There is no charge for this rider at issue or when the benefit goes into effect.
- It remains intact as a paid-up policy if an outstanding loan exceeds 99% of the cash value.
- If this benefit goes into effect, the policy will become paid-up life insurance.
- The amount of the paid-up insurance is the amount provided by the sum of the Tabular Cash Value, Dividend Credits and the value of Paid-Up Additions when applied as a net single premium at the attained age(s) of the Insured (s), at the time the benefit goes into effect. The new Death Benefit will be equal to this amount of paid-up insurance, less Policy Debt.
- When the policy becomes a paid-up policy:
  - Dividend option automatically changes to paid-up additions, unless owner selects the cash option.
  - All supplemental riders will be terminated.
  - No further premium payments or policy loans will be allowed.
  - No further changes can be made to the policy.
- For the rider to take effect the younger insured must be at least 75 years old and the policy must be in effect for at least 15 years.

Neither the IRS nor the courts have ruled on the tax consequences of exercising the Overloan Protection Benefit Rider. It is possible that the IRS or a court could assert that the policy has been effectively terminated and that the outstanding loan balance should be treated as a distribution, all or a portion of which could be taxable when the rider is exercised. In addition, this Overloan Protection Benefit Rider may not be appropriate for your particular circumstances. Consult with a tax professional regarding the risks associated with exercising this rider.

### **Supplemental Exchange Rider** Rider Form: SEJ-TL-17-CA

This benefit allows you to replace one insured with another insured without having to purchase a new or additional policy.

- The new insured must have the same relationship to the remaining insured as the original did.
- Normal evidence of health is required for the new covered insured.
- Such an exchange may result in the policy's cash value becoming taxable, so please consult a personal tax professional.
- This rider is automatically included with your policy.

### **Policy Split Option** Rider Form: PSO-TL-17

This option allows a policy to be exchanged for two individual Penn Mutual whole life insurance policies in the event of a divorce or certain changes to federal estate tax laws, including:

- The federal estate tax is repealed
- The unlimited marital deduction under federal estate tax law is eliminated or reduced to one-half or less of the federal gross estate
- The amount exempt from federal estate tax is reduced by 50% or more
- The federal estate tax rates are reduced by 25% or more.

Medical evidence of insurability is not required as long as the policy split percentages are 50/50. This option is automatically included with your policy.

### Insured: **Valued Client and Second Client**

Male, Age 50, Preferred Non-Tobacco  
 Female, Age 50, Preferred Non-Tobacco  
 Contract Premium Mode: Annual  
 EPPUA Premium Mode: Annual  
 Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
 Initial Premium: \$95,620.30

### Enhanced Permanent Paid-Up Additions Rider (EPPUA)

**EPPUA Rider Period: 50 Years**  
 Rider Form: EPPUA-TL-17  
 Annual Payment Limit: \$66,240.30  
 EPPUA Rider Payment Requirement: \$66,240.30

This rider allows you to increase your policy cash value, potential dividends and death benefit by allowing you to pay extra premiums to purchase additional, paid-up whole life insurance (paid-up additions). You also choose the length of time over which you want to pay these extra premiums.

- The Minimum modal EPPUA premium payment is \$25.00.
- EPPUA Premium payments can only be made on monthly policy anniversaries.
- Total EPPUA premiums cannot exceed the Annual Payment Limit for the policy year without additional underwriting.
- The Annual Payment Limit is established at the time the rider is issued.
- From policy year 3 through policy year 15, you may catch up on any shortfall that existed during the previous year between your EPPUA premiums and Annual Payment Limit, without additional underwriting.
- A charge equal to a percentage of the EPPUA premium will be made upon each exercise of this option.
- The EPPUA Rider Period is selected by the owner when the policy is issued. This is the number of years until the EPPUA rider will terminate if no other events have already caused the rider to terminate.
- This rider will automatically terminate if cumulative EPPUA premiums made within the previous 5 policy years are less than the EPPUA Rider Payment Requirement of \$66,240.30.
- Paid-up additions or premium reduction must be the selected dividend option or the EPPUA rider will be automatically terminated.

Your illustration shows:

- An Annual Payment Limit of \$66,240.30.
- The initial EPPUA payment in Policy Year 1, Month 1.
- EPPUA premiums being discontinued after year 8.
- This rider continuing through the end of policy year 8.

### Contract Premium

**Mode: Annual**

This is the premium due based on the frequency of premium payments (mode) illustrated during the policy year for the base policy and any illustrated riders, other than the EPPUA Rider. Premiums are assumed to be paid at the beginning of the period to which they apply.

### Policy Payment Period: 50 Years

The Policy Payment Period is selected at issue and for this illustrated policy is 50 Years. At the end of the 50 years the policy will be paid-up and no additional premiums will be due.

Illustrated Coverage	Face Amount	Annual Premium	Semi-Annual Premium	Quarterly Premium	Monthly Premium
Whole Life (Base)	\$2,000,000	\$29,380.00	\$15,013.18	\$7,668.18	\$2,556.06
Accelerated Death Benefit		N/A	N/A	N/A	N/A
Chronic Illness Rider		N/A	N/A	N/A	N/A
Overloan Protection Rider		N/A	N/A	N/A	N/A
Supplemental Exchange Rider		N/A	N/A	N/A	N/A
Policy Split Option		N/A	N/A	N/A	N/A
<b>Total Annualized Amount:</b>		<b>\$29,380.00</b>	<b>\$30,026.36</b>	<b>\$30,672.72</b>	<b>\$30,672.72</b>

### Insured: Valued Client and Second Client

Male, Age 50, Preferred Non-Tobacco  
 Female, Age 50, Preferred Non-Tobacco  
 Contract Premium Mode: Annual  
 EPPUA Premium Mode: Annual  
 Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
 Initial Premium: \$95,620.30

### EPPUA Premium

#### EPPUA Mode: Annual

Annual Payment Limit: \$66,240.30  
 Scheduled EPPUA Rider Billed Amount (Annualized): \$66,240.30  
 EPPUA Rider Payment Requirement: \$66,240.30

Enhanced Permanent Paid-Up Additions (EPPUA) Rider premiums may be paid on any monthly policy anniversary. EPPUA premiums are illustrated on annual anniversaries of the policy date. EPPUA premiums will appear on the premium notice (bill) based on the modal equivalent of the requested Annualized Billing Amount.

Illustrated Coverage	Lump Sum	Annual Premium	Semi-Annual Premium	Quarterly Premium	Monthly Premium
EPPUA Rider		\$66,240.30			
<b>Total Annualized EPPUA:</b>		<b>\$66,240.30</b>			

### Underwriting Class

**Preferred Non-Tobacco  
 Preferred Non-Tobacco**

The insureds' underwriting class is based on factors such as overall health history, occupation and activities that involve risk. This illustration assumes the underwriting classes to the left. The actual payments will depend on the outcome of the underwriting process and may vary from what is shown on this illustration. If so, you will receive a Revised Illustration when your contract is delivered.

### Dividends

Dividends awarded from the company surplus may be paid based on the company's claim, expense, and investment return experience. Dividends are paid at the end of the policy year. They are not guaranteed, and are subject to change by Penn Mutual.

### Dividend Options

Initial: Paid-Up Additions (PUAs)

You may choose from several dividend options, and in some situations you may choose to have any excess dividends allotted to another indicated option:

- **Paid-up Additions (PUAs):** Purchases paid-up whole life insurance
- **Premium Reduction:** Reduces any premium due in the next payment period
- **Cash:** Paid in cash
- **Dividend Accumulations:** Earns interest at a rate determined by Penn Mutual
- **Loan Repayment:** Used to repay any existing policy loans

### Accessing Your Cash Value

You can access the policy cash value you have accumulated for any reason. Your policy allows two options for accessing your cash value:

#### Policy Loans: You can take a loan against the policy.

- Loans will bear interest at an adjustable loan interest rate set by Penn Mutual as of the first day of each calendar year.
- Loan interest is due and payable at the end of each policy year.
- If the loan interest is not paid when due, it will be added to the loan balance.
- An unpaid loan balance may cause the policy to lapse.
- The current loan interest rate is 5.70%.

### Insured: **Valued Client and Second Client**

Male, Age 50, Preferred Non-Tobacco  
Female, Age 50, Preferred Non-Tobacco  
Contract Premium Mode: Annual  
EPPUA Premium Mode: Annual  
Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
Initial Premium: \$95,620.30

### Accessing Your Cash Value (continued)

**PUA/Dividend Surrenders:** You can take PUA/dividend surrenders from your policy as long as your policy has PUA/dividend value.

Policy loans and PUA/dividend surrenders will reduce your values and benefits and are not reflected in the Basic Ledger. Dividends will also be affected by any outstanding loans. The effects of these types of distributions can be seen on the Supplemental Ledgers.

### Non-forfeiture Option

In the event of a lapse (premium is not paid), you may surrender this policy for its Net Cash Value or keep it in force under the following non-forfeiture option:

#### Reduced Paid-Up Whole Life Insurance:

- If there is no outstanding policy loan, the reduced paid-up whole life insurance amount is equal to the amount which can be purchased by the total of the Guaranteed Cash Value and Dividend Credits\* when applied as a net single premium at the attained ages of the insureds on the due date of the unpaid premium. Any existing Paid-Up Additions (from dividends or premiums) would be added to this result for the total reduced Paid-Up Whole Life Insurance Amount.
- If there is an outstanding policy loan, the loan is first allocated proportionately between the Guaranteed Cash Value plus any Dividend Credits\*, and any Paid-Up Additions cash value. The Guaranteed Cash Value plus dividend credits less its allocated share of the loan will be applied as a net single premium at the attained ages of the insureds on the due date of the unpaid premium. And if there is Paid-Up Additions cash value, its cash value less its allocated share of the loan will be applied as a net single premium at the attained ages of the insureds on the due date of the unpaid premium to purchase the remaining Paid-Up Whole Life Insurance Amount. Both paid-up amounts will be added together for the total reduced Paid-Up Whole Life Insurance Amount. The outstanding policy loan will be extinguished.
- The policy will continue to earn dividends on the reduced paid-up amount, and remains eligible for loans and PUA/dividend surrenders.

\*Dividend Credits are:

- Dividend Accumulations, including accrued interest;
- Any dividend applied under the Premium Reduction dividend option which has not been used because of the death of the last surviving insured or because of lapse or surrender of this policy; and
- Any dividend at death of the last surviving insured.

### Important Tax Information

Any references to the taxation of life insurance products in this illustration are based on Penn Mutual's understanding of current tax laws as of the date of the illustration. Please be certain to consult a qualified tax professional regarding your own personal situation.

### Insured: **Valued Client and Second Client**

Male, Age 50, Preferred Non-Tobacco  
 Female, Age 50, Preferred Non-Tobacco  
 Contract Premium Mode: Annual  
 EPPUA Premium Mode: Annual  
 Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
 Initial Premium: \$95,620.30

### 7-Pay Premium

Initial: \$104,420.07

In order to receive favorable tax treatment of distributions such as policy loans or PUA/dividend surrenders, a life insurance policy must satisfy the '7-Pay' Premium Test.

- Life insurance policy premiums must be within certain limits during the life of the policy.
- A policy that does not meet the qualifications of this test is referred to as a Modified Endowment Contract (MEC).
- Your initial '7-Pay' premium is \$104,420.07. The '7-Pay' Premium used in this test may be adjusted under certain circumstances over the lifetime of the policy.

### Taxation of Distributions

In general, the accumulated value of a life insurance policy is tax deferred but may be subject to taxation at the time of a full surrender or dividend surrender.

If your policy is not a Modified Endowment Contract (MEC):

- The tax treatment of any death benefit provided under the contract will qualify for income tax free treatment.
- PUA/Dividend surrenders during the first 15 policy years are subject to additional rules and may be taxable.
- If your policy has an outstanding loan balance and your policy terminates, the loan balance may be taxable.

If your policy is a MEC:

- The tax treatment of any death benefit provided under the contract will still qualify for income tax free treatment.
- You may be subject to additional taxes and penalties on any distributions from your policy during the life of the insured.
- Policy distributions, including loans to capitalize loan interest, will be taxed on a 'gain first' basis and any taken prior to age 59 ½ may be assessed a 10% penalty.

Please refer to the footnotes at the end of each Ledger page for the MEC status.

### Illustrated Tax Bracket

50.00%

The owner's tax bracket used in this illustration is 50.00%.

### Interest Adjusted Cost Indices

These indices provide a means of comparing the relative cost of similar plans of life insurance. A low index number represents a lower cost than a higher one. The 5% Interest Adjusted Cost Indices below are for the base plan per \$1,000 of face amount.

### Net Payment Index

	10 Year	20 Year
<b>Guaranteed</b>	17.55	28.32
<b>Non-Guaranteed Current</b>	17.32	28.10

### Insured: **Valued Client and Second Client**

Male, Age 50, Preferred Non-Tobacco  
 Female, Age 50, Preferred Non-Tobacco  
 Contract Premium Mode: Annual  
 EPPUA Premium Mode: Annual  
 Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
 Initial Premium: \$95,620.30

### Surrender Cost Index

	10 Year	20 Year
<b>Guaranteed</b>	-21.08	-11.85
<b>Non-Guaranteed Current</b>	-21.31	-12.08

### Equivalent Level Annual Dividend

	10 Year	20 Year
<b>Guaranteed</b>	N/A	N/A
<b>Non-Guaranteed Current</b>	0.19	0.12

The purpose of these indices is to provide a means of comparing the relative cost of similar plans of life insurance issued by the same or different insurers. A low index number represents a lower cost than a higher one. These indices are not meant to compare two different life insurance companies. They do not consider the value of the services of a financial professional or the company, the strength or reputation of the company, or the differences in the policy provisions.

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
 Initial Premium: \$95,620.30

## Definitions

### Column Headings

<b>Age</b>	The attained ages of both of the insureds as of the end of the policy year.
<b>Base Contract Premium</b>	The amount of premium to be paid during the policy year for the base policy and any illustrated riders other than the Enhanced Permanent Paid-Up Additions Rider.
<b>Cash Value (Guaranteed)</b>	The amount of cash value guaranteed by the policy as long as there are no outstanding policy loans.
<b>Change in CV Less Prem. Outlay</b>	The change in the total cash value amount since the end of the previous policy year minus the premium outlay for that policy year.
<b>Change in Total Cash Value</b>	The change in the total cash value amount since the end of the previous policy year.
<b>Cum. Premium Outlay</b>	The contract premiums less any dividends used to reduce the premium, PUA/dividend surrenders used to pay premiums, and/or loans used to pay premiums accumulated through the end of the policy year.
<b>Death Benefit (Guaranteed)</b>	The guaranteed base policy death benefit that will be paid out to the beneficiary as long as there are no outstanding policy loans.
<b>Dividend</b>	The annual dividend payable at the end of the policy year on the base policy and any dividend from paid-up additional insurance.
<b>EOY Reduced Paid-Up Death Benefit</b>	The paid-up death benefit if the owner were to exercise the reduced paid-up non-forfeiture option at the end of the policy year. The reduced paid-up non-forfeiture option is not available after the last year of the Policy Payment Period, 50 years.
<b>EPPUA Premium</b>	The premium payments scheduled during the policy year under the Enhanced Permanent Paid-Up Additions (EPPUA) Rider.
<b>Income</b>	The total income taken from the policy, including dividends paid in cash, and PUA/dividend surrenders and/or policy loans paid as income to policy owner.
<b>Increase In Total Cash Value (Guaranteed)</b>	The increase in the guaranteed total policy cash value since the end of the previous policy year.
<b>Increase In Total Cash Value (Non-Guaranteed)</b>	The increase in the non-guaranteed total policy cash value since the end of the previous policy year.

**Insured: Valued Client and Second Client**

Male, Age 50, Preferred Non-Tobacco  
 Female, Age 50, Preferred Non-Tobacco  
 Contract Premium Mode: Annual  
 EPPUA Premium Mode: Annual  
 Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
 Initial Premium: \$95,620.30

<b>Premium Outlay</b>	The contract premiums less any dividends used to reduce the premium, PUA/ dividend surrenders used to pay premiums, and/or loans used to pay premiums.
<b>Total Cash Value (Guaranteed)</b>	The sum of the guaranteed base policy cash value and the guaranteed Enhanced Permanent Paid-Up Additions (EPPUA) Rider cash value, assuming no outstanding policy loan balance.
<b>Total Cash Value (Non-Guaranteed)</b>	The guaranteed cash value of the base policy and the guaranteed cash value of the Enhanced Permanent Paid-Up Additions (EPPUA) Rider as well as any non-guaranteed cash value resulting from the illustrated dividend option and dividend scale, assuming no outstanding policy loans. The non-guaranteed total cash value is illustrated as of the end of the policy year and includes the dividend awarded in the policy year, but not yet applied.
<b>Total Death Benefit (Guaranteed)</b>	The sum of the guaranteed base policy death benefit and the guaranteed Enhanced Permanent Paid-Up Additions (EPPUA) Rider death benefit, assuming no outstanding policy loans. The death benefit shown assumes that there were no dividends to help fund the purchase of paid-up additions for the EPPUA, which over time could result in a decrease in the death benefit.
<b>Total Death Benefit (Non-Guaranteed)</b>	The sum of the guaranteed base policy death benefit, and the guaranteed Enhanced Permanent Paid-Up Additions (EPPUA) Rider death benefit, plus the death benefit resulting from the illustrated dividend option and dividend scale, assuming no outstanding policy loans. The Total Death Benefit column illustrates the death benefit as of the end of the policy year and includes the dividend awarded in the policy year but not yet applied.
<b>Total Premium</b>	The sum of the base contract premium and Enhanced Permanent Paid-Up Additions (EPPUA) Rider premium to be paid during the policy year.
<b>Year</b>	The initial policy year begins on the policy date and subsequent policy years begin on the policy's anniversary date.

## Policy Value Summary

### Values

**Guaranteed**

Values are guaranteed and assume no dividends.

**Non-Guaranteed Mid-Point**

Values are not guaranteed and assume dividends are paid at 50% of the current scale.

**Non-Guaranteed Current**

Values are not guaranteed and assume dividends are paid at the current scale.

Year	Age	Annual Premium	Cumulative Premium	Guaranteed		Non-Guaranteed Mid-Point		Non-Guaranteed Current	
				Cash Value	Death Benefit	Cash Value	Death Benefit	Cash Value	Death Benefit
5	55 55	95,620	478,102	424,510	2,908,499	434,106	2,929,686	443,953	2,951,347
10	60 60	29,380	823,722	854,078	3,398,448	899,923	3,497,774	948,521	3,602,635
20	70 70	29,380	1,117,522	1,446,848	3,398,448	1,664,595	3,780,086	1,916,785	4,220,293
35	85 85	29,380	1,558,222	2,519,790	3,398,448	3,426,736	4,524,710	4,661,797	6,054,754

This illustration assumes that the currently illustrated non-guaranteed elements will continue unchanged for all years shown. This is not likely to occur, and actual results may be more or less favorable than those shown.

Policy Loans and PUA/Dividend Surrenders will reduce your values and benefits, and are not reflected in this illustration. The effects of these types of distributions can be seen on the Supplemental Ledger.

This illustration assumes a Policy Payment Period of 50 years. Once selected, this will remain unchanged through the life of the policy.

**I have received a copy of this illustration and understand that any non-guaranteed elements illustrated are subject to change and could be either higher or lower. The agent has told me they are not guaranteed.**

**All guarantees are based on the claims paying ability of the issuing company.**

## Supplemental Ledger - Current Dividend Scale

### Values

#### Current Dividend Scale

*Refer back to the basic illustration for guaranteed elements and other important information.*

*Benefits and values are subject to change by Penn Mutual and are not guaranteed, actual results may be more or less favorable.*

Values are based on the guarantees in your policy, as well as any non-guaranteed dividends paid at the current scale. This supplemental ledger will also reflect PUA/dividend surrenders and policy loans, if illustrated.

The policy shown in this illustration is not guaranteed to be a paid-up policy until after the policy payment period ends. Any suspension of premium shown prior to the end of the policy payment period is dependent on the dividends assumed in the illustration. Future dividends may be less than those illustrated which may result in the need to continue premium payments or resume premium payments after an initial suspension of such premium payments.

<sup>1</sup>The Reduced Paid-Up (RPU) non-forfeiture option was exercised in policy year 9. Upon exercise of this option, premiums are discontinued, and any riders not already paid-up are eliminated. The dividend option automatically changes to Paid-up Additions (PUAs), but the owner may elect to change the dividend option. This illustration reflects the Paid-Up Additions dividend option from policy year 9. The initial reduced paid-up insurance amount is \$532,000. Loans and/or PUA/dividend surrenders after the RPU option is exercised could cause additional outlay, such as loan repayments, to be required if the insurance protection is to be maintained.

The non-guaranteed values illustrated avoid Modified Endowment Contract (MEC) status. Please see Important Tax Information in the Policy Overview section of this illustration for additional information.

Initial Dividend Option: Paid-Up Additions (PUAs)  
 Initial Premium: \$95,620.30

## Supplemental Ledger - Alternate Dividend Scale

### Values

#### 0.25% Reduction

*Refer back to the basic illustration for guaranteed elements and other important information.*

*Benefits and values are subject to change by Penn Mutual and are not guaranteed, actual results may be more or less favorable.*

Values are based on the guarantees in your policy, as well as any non-guaranteed dividends paid at an alternate scale which assumes an interest factor that is 0.25% less than the current scale. This supplemental ledger will also reflect PUA/dividend surrenders and policy loans if illustrated.

The policy shown in this illustration is not guaranteed to be a paid-up policy until after the policy payment period ends. Any suspension of premium shown prior to the end of the policy payment period is dependent on the dividends assumed in the illustration. Future dividends may be less than those illustrated which may result in the need to continue premium payments or resume premium payments after an initial suspension of such premium payments.

<sup>1</sup>The Reduced Paid-Up (RPU) non-forfeiture option was exercised in policy year 9. Upon exercise of this option, premiums are discontinued, and any riders not already paid-up are eliminated. The dividend option automatically changes to Paid-up Additions (PUAs), but the owner may elect to change the dividend option. This illustration reflects the Paid-Up Additions dividend option from policy year 9. The initial reduced paid-up insurance amount is \$532,000. Loans and/or PUA/dividend surrenders after the RPU option is exercised could cause additional outlay, such as loan repayments, to be required if the insurance protection is to be maintained.

<sup>2</sup>This policy will become a MEC in policy year 21. The 7-Pay Premium in year 21 is \$90,773. Please see Important Tax Information in the Policy Overview section of this illustration for additional information.

## About The Penn Mutual Life Insurance Company

For more than 175 years, Penn Mutual has been helping people get stronger. Our expertly crafted life insurance is vital to long-term financial health and strengthens people's ability to enjoy every day. Working with our trusted network of financial professionals, we take the long view, building customized solutions for individuals, their families, and their businesses. Penn Mutual supports its financial professionals with retirement and investment services through its wholly owned subsidiary Hornor, Townsend & Kent, LLC, member FINRA/SIPC.

**Visit Penn Mutual at [www.pennmutual.com](http://www.pennmutual.com).**

**All guarantees are based on the claims paying ability of the issuing company.**

This illustration assumes that the currently illustrated non-guaranteed elements will continue for all years shown. This is not likely to occur, and actual results may be more or less favorable than those shown.

## Internal Rate of Return Report

### Purpose of this Report

*Refer back to the basic illustration for guaranteed elements and other important information.*

This report shows you what interest rate return you would have to earn on your net premium outlay in order to equal the cash value and death benefit on this illustration. This report does not reflect the impact of any taxes on your rate of return. Please consult the Tax Summary Report or your tax professional for details.

### Values

#### Current Dividend Scale

*Benefits and values are subject to change by Penn Mutual and are not guaranteed, actual results may be more or less favorable.*

Values are based on the guarantees in your policy, as well as any non-guaranteed dividends paid at the current scale. This supplemental ledger will also reflect PUA/dividend surrenders and policy loans, if illustrated.

<sup>1</sup>The Reduced Paid-Up (RPU) non-forfeiture option was exercised in policy year 9. Upon exercise of this option, premiums are discontinued, and any riders not already paid-up are eliminated. The dividend option automatically changes to Paid-up Additions (PUAs), but the owner may elect to change the dividend option. This illustration reflects the Paid-Up Additions dividend option from policy year 9. The initial reduced paid-up insurance amount is \$532,000. Loans and/or PUA/dividend surrenders after the RPU option is exercised could cause additional outlay, such as loan repayments, to be required if the insurance protection is to be maintained.

The non-guaranteed values illustrated avoid Modified Endowment Contract (MEC) status. Please see Important Tax Information in the Policy Overview section of this illustration for additional information.

**Column Headings**

Please see the Definitions section of this illustration for any column header definitions not listed below.

**IRR on Total Cash Value**

The annual rate of return that the annualized net premium outlay would have to have earned in each year up to the end of the policy year to result in the same cash value shown for that policy year.

**IRR on Total Death Benefit**

The annual rate of return that the annualized net premium outlay would have to have earned in each year up to the end of the policy year to result in the same death benefit shown for that policy year.

**Net Premium Outlay**

Contract premiums less dividends used to reduce the premium, less dividends paid in cash, less PUA/dividend surrenders and/or loans.

### Insured: **Valued Client and Second Client**

Male, Age 50, Preferred Non-Tobacco  
 Female, Age 50, Preferred Non-Tobacco  
 Contract Premium Mode: Annual  
 EPPUA Premium Mode: Annual  
 Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
 Initial Premium: \$95,620.30

<sup>1</sup>The Reduced Paid-Up (RPU) non-forfeiture option was exercised in policy year 9. Upon exercise of this option, premiums are discontinued, and any riders not already paid-up are eliminated. The dividend option automatically changes to Paid-up Additions (PUAs), but the owner may elect to change the dividend option. This illustration reflects the Paid-Up Additions dividend option from policy year 9. The initial reduced paid-up insurance amount is \$532,000. Loans and/or PUA/dividend surrenders after the RPU option is exercised could cause additional outlay, such as loan repayments, to be required if the insurance protection is to be maintained.

The non-guaranteed values illustrated avoid Modified Endowment Contract (MEC) status. Please see Important Tax Information in the Policy Overview section of this illustration for additional information.

### Column Headings

Please see the Definitions section of this illustration for any column header definitions not listed below.

#### Total Contract Premium

The amount of premium to be paid during the policy year for the base policy and any illustrated riders other than PUAR.

#### Total Premium Including PUAR

The sum of the base contract premium plus all rider premiums to be paid during the policy year, including PUAR premium.

#### Out-of-Pocket Payments

The amount you will pay after PUA/dividend surrenders or loans are applied.

#### Dividend Surrenders to Pay Premium

Amount of PUA/dividend surrenders used to reduce the premium outlay.

#### Dividend Surrenders to Owner

Amount of PUA/dividend surrenders paid as income to the policy owner, including those used to repay a portion of any outstanding loan balance.

#### Loans to Pay Premium

Amount of policy loans used to reduce the premium outlay.

#### Loans to Owner

Amount of policy loan paid as income to the policy owner.

#### Total Distribution from Policy

Total amount of loans and PUA/dividend surrenders distributed to the policy owner.

#### Loan Interest

Annual interest due on the loan balance. The current loan interest rate is 5.70%. This illustration assumes that this non-guaranteed rate will continue unchanged for all years shown. This is not likely to occur. The policy loan interest rate is adjustable and is subject to change by Penn Mutual annually.

### Insured: Valued Client and Second Client

Male, Age 50, Preferred Non-Tobacco  
 Female, Age 50, Preferred Non-Tobacco  
 Contract Premium Mode: Annual  
 EPPUA Premium Mode: Annual  
 Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
 Initial Premium: \$95,620.30

## Tax Summary

### Purpose of this Report

Refer back to the basic illustration for guaranteed elements and other important information.

This report shows you the potential tax implications, if any, of your illustrated distributions.

### Values

#### Current Dividend Scale

Benefits and values are subject to change by Penn Mutual and are not guaranteed, actual results may be more or less favorable.

Values are based on the guarantees in your policy, as well as any non-guaranteed dividends paid at the current scale. This supplemental ledger will also reflect PUA/dividend surrenders and policy loans, if illustrated.

<sup>1</sup>The Reduced Paid-Up (RPU) non-forfeiture option was exercised in policy year 9. Upon exercise of this option, premiums are discontinued, and any riders not already paid-up are eliminated. The dividend option automatically changes to Paid-up Additions (PUAs), but the owner may elect to change the dividend option. This illustration reflects the Paid-Up Additions dividend option from policy year 9. The initial reduced paid-up insurance amount is \$532,000. Loans and/or PUA/dividend surrenders after the RPU option is exercised could cause additional outlay, such as loan repayments, to be required if the insurance protection is to be maintained.

The non-guaranteed values illustrated avoid Modified Endowment Contract (MEC) status. Please see Important Tax Information in the Policy Overview section of this illustration for additional information.

### Column Headings

Please see the Definitions section of this illustration for any column header definitions not listed below.

#### Amount Subject to Taxes

Taxable portion of any distributions.

#### Cost Basis

The amount of premium less PUA/dividend surrenders or dividends used to reduce the premium or paid out as income.

#### Dividend Surrenders to Owner

Amount of PUA/dividend surrenders paid as income to the policy owner.

#### Gains

The total cash value, including loans, less the cost basis.

#### Taxes Owed Based on 50% Tax Bracket

The amount of tax that is owed based on the owner's tax bracket.

### Insured: **Valued Client and Second Client**

Policy Payment Period: 50 Years

Initial Base Face Amount: \$2,000,000

Initial Dividend Option: Paid-Up Additions (PUAs)  
Initial Premium: \$95,620.30

### Important Tax Information

In general, the accumulated value of a life insurance policy is tax deferred, but may be subject to taxation at the time of a PUA/dividend surrender, full policy surrender or lapse to the extent they exceed the cost basis of the policy. Cost basis is defined as gross premiums paid, less dividends used to reduce premium, less dividends paid as income, less any non-taxable PUA/dividend surrenders.

If there is an outstanding loan at the time of a full surrender or lapse, the loan balance may also be subject to taxation. Dividends used to reduce the premium or paid as income may be taxable to the extent they exceed the cost basis. Interest earned on dividends left to accumulate at interest is fully taxable.

Any references to the taxation of life insurance products in this illustration are based on Penn Mutual's understanding of current tax laws as of the date of the illustration. Please be certain to consult a qualified tax professional regarding your own personal situation.

## Cash Value Summary

### Purpose of this Report

*Refer back to the basic illustration for guaranteed elements and other important information.*

This report shows you the breakdown of the non-guaranteed cash values that were generated from your total premium (including any paid-up addition rider premium), and dividends.

### Values

#### Current Dividend Scale

*Benefits and values are subject to change by Penn Mutual and are not guaranteed, actual results may be more or less favorable.*

Values are based on the guarantees in your policy, as well as any non-guaranteed dividends paid at the current scale. This supplemental ledger will also reflect PUA/dividend surrenders and policy loans, if illustrated.

<sup>1</sup>The Reduced Paid-Up (RPU) non-forfeiture option was exercised in policy year 9. Upon exercise of this option, premiums are discontinued, and any riders not already paid-up are eliminated. The dividend option automatically changes to Paid-up Additions (PUAs), but the owner may elect to change the dividend option. This illustration reflects the Paid-Up Additions dividend option from policy year 9. The initial reduced paid-up insurance amount is \$532,000. Loans and/or PUA/dividend surrenders after the RPU option is exercised could cause additional outlay, such as loan repayments, to be required if the insurance protection is to be maintained.

The non-guaranteed values illustrated avoid Modified Endowment Contract (MEC) status. Please see Important Tax Information in the Policy Overview section of this illustration for additional information.

**Column Headings**

Please see the Definitions section of this illustration for any column header definitions not listed below.

**Base Guaranteed Cash Value**

The guaranteed cash value of the base policy as of the end of the policy year.

**Change In Base Guaranteed Cash Value**

Change in the Base Guaranteed Cash Value from the end of the previous policy year.

**Change In Paid-Up Additions Cash Value**

Change in the Paid-Up Additions Cash Value from the end of the previous policy year.

**Change In Total Cash Value**

Change in the Total Cash Value from the end of the previous policy year.

**Paid-Up Additions Cash Value**

The cash value of paid-up additional insurance purchased with dividends and the Enhanced Permanent Paid-Up Additions (EPPUA) Rider as of the end of the policy year.

**Net Premium Outlay**

Contract premiums less dividends used to reduce the premium, less dividends paid in cash, less PUA/dividend surrenders and/or loans.

### Insured: Valued Client and Second Client

## Dividend Option Summary

### Purpose of this Report

*Refer back to the basic illustration for guaranteed elements and other important information.*

This report shows you the dividend option(s) that are illustrated, and is useful when your dividend option varies throughout the life of the policy.

### Values

#### Current Dividend Scale

*Benefits and values are subject to change by Penn Mutual and are not guaranteed, actual results may be more or less favorable.*

Values are based on the guarantees in your policy, as well as any non-guaranteed dividends paid at the current scale. This supplemental ledger will also reflect PUA/dividend surrenders and policy loans, if illustrated.
